Mangalore.

Sir,

(M)

In G.O.No.2884 P.H.,dated the 17th December 1934, Government under sub-section (3) of Section 67 of the Madras Local Boards Act, 1920, as amended fixed the designations,grades,salaries etc. of the Public Health Establishments,under the control of the District Board and requested the Municipal Councils to adopt them in the case of their subordinates. This order was placed before the council which, in its Resolution No.23, dated

Copy not enclosed.

dated the 15th February 1935, adopted the same with effect from 1st January 1935. A list of subordinates whose pay exceeded the maximum of the revised scale of pay was placed before the council and on the council's recommendation, Government were pleased to sanction the difference between the actual pay drawn by them and the maximum of the revised scale, as personal pay. Some of the establishments which did not find a place in G.O. No.2884 P.H.,dated the 17th December 1934, were also submitted to Government for sanction and Government in G.O. No. MS. 1695 P.H.,dated the 23rd September 1936 sanctioned these establishments pending the issue of general orders fixing the strength, scales of pay, etc. of the Public Health Establishments.

2. In G.O.No. 646, Education & Public Health Department, dated the 10th March 1937, Government have in exercise of the powers vested in them under sub-section (3) of Section 70 of the Madras District Municipalities Act, 1920, as amended, fixed the designations, and grades of and the scales of salaries and allowances payable to officers and servants in the Public Health Establishments under the control of the Municipal Councils in the Madras Presidency with effect from 1st April 1937.

3. As required in para 5 of the Government order referred to above, a list of persons whose pay exceeded the maximum of the revised scale of pay was placed before the council and the council has in its Resolution No.19, dated the 19th July 1937 recommended the grant of personal pay in the case of officers and servants detailed in the enclosed list.

4. The Council recommends that in the case of, vaccinator,Birth & Death Registrar, the Conservancy lorry drivers, sanitary maistries,plague maistry, and peons, the

difference between the actual pay drawn by them on 31st March 1937 in the old scale of pay and the maximum of the revised scale may be granted to them as personal pay.

In this connection I have to bring to the notice of Government that in my letter No.1134 of 1934-35 dated the 8th March 1935 - copy of which was forwarded with my letter C.No.2445-B1-36, dated the 19th May 1936, I had stated that the Council had in its employ 14 maistries on Rs.15-1-30. (Please see enclosure No.3) and the Government in G. O. No. MS. 1695 P. H. dated the 23rd September 1936 had sanctioned the continuance of the menials and the other staff referred to therein in the old scale of pay. The original scale of pay of the sanitary maistries was Rs.15-1-25 which was revised by the council to Rs.15-1-30 in its resolution No.17, dated the 13th November 1933. Though this revision was done in November 1933, it was for some reason not given effect to till the sanction accorded in G.O.No. MS.1695 P.H. dated the 23rd September 1936 was received by me when the arrears of increment as per the revised scales were drawn and paid to them. The fact that the revised scale Rs.15-1-30 was not actually given effect to though sanctioned by the council in 1933, was by an oversight omitted to be brought to the notice of Government when applying for the necessary sanction.

But as the scale of pay mentioned in my letter was one in existence though not actually given effect to, and as the council had in its original resolution No.23, dated the 15th February 1935 recommended the retention of the maistries on a scale of pay of Rs.15-1-30 and in view of the subsequent resolution No.19,dated the 19th

July 1937 of the council recommending the grant of the difference between the actual pay drawn by them on 31st March 1937 and the maximum of the revised scales as personal pay I request that Government may be pleased to consider their case favourably.

5. In the case of menials under the employ of the council, the council considers that their existing scales may be allowed to continue as these scales were fixed by the council after taking into account the existing wages of coolies in the Town and the comparatively costlier living in Mangalore. Besides, these scales were fixed about four years ago, when they were considerably reduced after the strike by the scavengers and other menial staff and it is therefore considered not advisable to further reduce their pay. Further, as these menials are paid on daily muster, it will be difficult to get substitutes on a different scale of pay when the permanent hands absent themselves.

6. In view of the fact that Government in G. O. No. MS. 1695, P. H., (Education & Public Health Department), dated the 23rd September 1936, have already sanctioned -- personal pay in the case of subordinates who were drawing pay in excess of the maximum of the revised scale and also allowed the continuance of the existing menial staff on the existing scales of pay as per order referred to above, I request, Government will be pleased to sanction the payment of the personal pay as recommended by the council and permit the continuance of the menial staff detailed in the enclosed list on their existing scales of pay.

7. In Memorandum No. 2759-2-D2/P.H., dated the 6th

not part up.

January

January 1936, Government have ordered that when the revised scales of pay are fixed under the specific provision in sub-section (3) of section 70 of the Madras District Municipalities Act, 1920, as amended F.R.22 (ii) is not applicable to such cases. The council feels that it will be hard upon the subordinates if the Government were not to take into account the period of service between the last increment and the date of fixation of pay by Government under sub section (3) of Section 70 of the Act for the purpose of drawing their future increments. To quote an instance, the case of the Woman Medical Officer under the employ of the council may be mentioned. She was entertained in service on 10th September 1935 and in the ordinary course she should have been entitled to draw her next increment on 10th September 1937. But if however, Government hold that F.R.22 (ii) is not applicable she will be entitled to get her next increment only on 1-4-1939 which the council considers is a very great hardship.

8. In the case of the Woman Medical Officer, Sanitary Inspectors and Midwives, the scale was adopted by the council as requested in G.O.No.2884 P.H. dated the 17th December 1934, with effect from 1st January 1935. The scales now fixed by Government in G.O.No.646, Education and Public Health Department, dated the 10th March 1937 are identical with these already adopted by the council in respect of these subordinates. I presume in such cases increments could be allowed after two years from the dates from which they last drew their increments irrespective of the date on which Government fixed the scales under sub-section (3) of Section 70 of the Madras District Municipalities Act, 1920, as amended. In the circumstances, the council requests that Government may be pleased to reconsider this question and pass favourable orders on the subject as it is a case of real hardship with all the subordinates whose scales of pay are fixed by Government.

9. Government in G.O.No. 646, Education and Public Health Department, dated the 10th March 1937, have stated that the scale of compounders should be as Rs.25-1(B)-35. It is not clear --- whether this scale is applicable to compounders employed in --- Institutions of Indian Medicine and whether the present scale -- could be granted to them irrespective of their grades in supersession of the orders passed in G.O.No. 315 P.H. dated the 11th February 1935. Instructions may be issued on this point also as the -- compounders represent that they may be given the benefit of this scale.

10. In the case of a Sanitary maistry, the increment due to him on 11th January 1937 was not drawn till the receipt of the -- orders of Government fixing their pay. I presume in such cases the increments accrued up to 31st March 1937 but not actually drawn till the receipt of the orders of Government, could be granted to them for the purpose of fixing their pay on 31st March 1937.

11. A copy of the Resolution of the council on the subject is enclosed.

Your obedient servant,

Commissioner, M.M. 17.8.37.

F o r w a r d e d.

RECEIVED 17.8.37

Proceedings of the Committee held at 5.15 p.m. on 15th June 1937 in the Municipal Office, Mangalore.

Present.

x x x

(A) Read G.O.No. 646, Education & Public Health Department, dated the 10th March 1937 and the Commissioner's note thereon.

The committee recommends that in the case of Sanitary maistries and the Plague maistry who were on 31st March 1937 drawing pay in excess of the maximum of the revised scale of pay, the difference may be granted to them as personal pay subject to the condition that in no case does the pay and the personal pay together exceed Rs.25 per month.

In the case of the Birth & Death Registrar, Vaccinator, the Conservancy lorry drivers and peons the difference between the actual pay drawn by them on 31st March 1937 and the maximum of the revised scale of pay may be granted as personal pay.

The committee further considers that in the case of menials under the employ of this council, their existing scales may be allowed to continue as these were fixed after taking into account the existing wages of coolies in the town and comparatively the more costly living in Mangalore. Besides, these scales were fixed about four years ago, when their scales were considerably reduced after the strike by the menial staff and it is not advisable to further reduce their pay.

As for the increments the committee feels that it will be hard upon the subordinates, if the Government were not to take into account the period of service between the last increment and the date of fixation of pay by Government, under sub-section 3 of Section 70 of the Madras

District

District Municipalities Act, 1920, as amended for the purpose of drawing their future increments and therefore recommends - that Government be requested to consider the question --- favourably.

Through
The Chairman,
Municipal Council
Mangalore.

Sir,

In G.O.No.2884 P.H., dated the 17th December 1934 Government under sub-section (3) of Section 67 of the Madras Local Boards Act, 1920, as amended fixed the designations, grades, salaries, etc., of the Public Health Establishments, under the control of the District Board and requested the Municipal Councils to adopt them in the case of their ---- subordinates. This order was placed before the council which, in its Resolution No.23, dated the 15th February 1935 adopted the same with effect from 1st January 1935. A list of subordinates whose pay exceeded the maximum of the revised scale of pay was placed before the council and on the council's recommendation, Government were pleased to sanction the difference between the actual pay drawn by them and the maximum of the revised scale, as personal pay. Some of the establishments which did not find a place in G.O.No.2884 P.H. dated the 17th December 1934, were also submitted to

Government for sanction and Government in G.O. No.MS.1695 P.H., dated the 23rd September 1936 sanctioned these establishments pending the issue of general orders fixing the strength scales of pay, etc. of the Public Health Establishments.

2. In G.O. No.646, Education & Public Health Department dated the 10th March 1937, Government have in exercise of the powers vested in them under subsection (3) of Section 70 of the Madras District Municipalities Act, 1920, as amended, fixed the designations, and grades of ~~##~~ and the scales of salaries and allowances payable to officers and servants in the Public Health Establishments under the control of the Municipal Councils in the Madras Presidency with effect from 1st April 1937.

3. As required in para 5 of the Government order referred to above, a list of persons whose pay exceeded the maximum of the revised scale of ~~###~~ pay was placed before the council and the council has in its Resolution No.19 dated the 19th July 1937 recommended the grant of personal pay in the case of officers and servants detailed in the enclosed list.

4. The council recommends that in the case of vaccinator, Birth & Death Registrar, the conservancy lorry drivers, sanitary maistries, plague maistry, and peons, the difference between the actual pay drawn by them on 31st March 1937 in the old scale of pay and the maximum of the revised scale may be granted to them as personal pay.

In this connection I have to bring to the notice of Government that in my letter No:1134 of 1934-35 dated the 8th March 1935 a copy of which was forwarded with my letter C.No.2445-B1-36, dated the 19th May 1936, I had stated that the council had in its employ 14 maistries on Rs.15-1-30. (Please see enclosure No.3) and the Government in G.O.No. MS. 1695 P.H. dated the 23 rd September 1936 had sanctioned the continuance of the menials and the other staff referred to therein in the old scale of pay. The original scale of pay of the sanitary maistries was Rs.15-1-25 which was

revised by the council to Rs.15-1-30 in its resolution No.17 dated the 13th November 1933. Though this revision was done in November 1933, it was for some reason not given effect to till the sanction accorded in G.O.No.MS.1695 P.H. dated the 23rd Sept.1936 was received by me when the arrears of increment as per the revised scales were drawn and paid to them. The fact that the revised scale of Rs.15-1-30 was not actually given effect to, though sanctioned by the council in 1933, was by an oversight omitted to be brought to the notice of Government when applying for the necessary sanction.

But as the scales of pay mentioned in my letter was one in existence though not actually given effect to, and as the council had in its original resolution No.23, and as the council had had in its original resolution no.23, eated the 15th February 1935 recommended the retention of the maistries on a scale of pay of Rs.15-1-30 and in view of the subsequent resolution no.19 dated the 19th July 1937 of the council recommending the grant of the difference between the actual pay drawn by them on 31st March 1937 and the maximum of the revised scales as personal pay I request that Government may be pleased to consider their case favourably.

5. In the case of menials under the employ of the council, considers that their ex sting scales may be allowed to continue as these scales were fixed by the council after taking into account the existing wages of coolies in the Town and the comparatively costlier living in Mangalore. Besides, these scales were fixed about four years ago, when they were considerably reduced after the strike by the scavengers and other menial staff and it is therefore considered not advisably to further reduce their pay. Further, as these menials are paid on daily muster, it will be difficult to get substitutes on a different scale of pay when the permanent hands absent themselves.

6. In view of the fact that Government in G.O.No. MS. 1695, P.H. (Eduation & Public Health Department)

dated the 23rd September1936, have already sanctioned personal pay in the case of subordinates who were drawing pay in excess of the maximum of the revised scale and also allowed the continuance of the existing menial staff on the existing scales of pay as per order referred to above, I request, Government will be pleased to sanction the payment of the personal pay as recommended by the council and permit the continuance of the menial staff detailed in the enclosed list on their existing scales of pay.

7. In Memorandum N.2759-2-D2/P.H., dated the 6th January 1936, Government have ordered that when the revised scales of pay are fixed under the speicific provision in sub-section (3) of section 70 of the Madras District ----- Municipalites Act 1920 as amended F.R.22(ii) is not applicable to such cases. The council feels that it will be hard upon the subordinates if the Government were not to take into account the period of service between the last increment and the date of ~~fi~~ fixation of pay by Government under sub-section (3) of Section 70 of the Act for the purpose of drawing their future increments. To quote an instance, the case of the the Woman Medical Officer under the employ of the council may be mentioned. She was was entertained in in service on 10th September 1935 and in the ordinary course she should have been entitled to draw here next increment on 10th September 1937. But if however, Government hold that F.R.22 (ii) is not applicable she will be entitled to get her next increment only on 1-4-1939,=which the council considers is a very great hardship.

8. In the case of the Woman Medical Officer, Sanitary Inspectors and Midwives, the scale was adopted by the Council as requested in G.O.No.2884 P.H. dated the 17th December 1934, with effect from 1st January 1935. The scales now fixed by Government in G.O.No.646, Education and Public Health Department, dated the 10th March 1937 are identical with these already adopted by the council in respect of these subordinates. I presume in such cases

increments could be allowed after two years from the dates from which they last drew their increments irrespective of the date on which Government fixed the scales under sub-section (3) of Section 70 of the Madras District Municipalities Act, 1920 as amended. In the circumstances, the council requests that Government may be pleased to reconsider this question and pass favourable orders on the subject as it is a case of real hardship with all the subordinates whose scales of pay are fixed by Government.

9. Government in G.O.No.646, Education andPublic Health Department, dated the 10th March 1937, have stated that the scales of compounders should be as Rs.-1(B)-35. It is not clear whether this scale is applicable to compounders employed in Institutionsof Indian Medicine and whether the present scale could be granted to them irrespective of their grades in supersession of the orders passed in G.O.No.315 P.H. dated the 11th February 1935. Instructions may be issued on this point also as the compounders represent that they may be given the benefit of this scale.

10. In the case of a Sanitary Maistry, the increment due to him on 11th Jaunary 1937 was not drawn till the receipt of the orders of Government fixing their pay. I presume in such cases the increments accrued up to 31st March 1937 but not actually drawn till the receipt of the orders of Government, could be granted to them for the purpose of fixing their pay on 31st March 1937.

11. A copy of the Resolution of the council on the subject is enclosed.

Your obedient servant,
/Sd/ C.R.Karunakara Menon,

To G1.

The letter from the
Commr Mangalore
was forwarded here
direct to the D.O.H for
remarks. When the file
went back to D2, that Section
added a para here where
about the para of Correspondence
in which the Indian
Medicine. This gave rise
to some delay in the
file was sent to the D.O.H
for his opinion. He gave
his opinion only on this point
but not on the other points raised
in Mangalore's letter. Hence
the need for reference to the D.O.H again.

G, 18/11/37

D.P.H.U.O.No.807-3/Sany.37 (A)
21st January 1938.

Even though the Mangalore Municipal Council had adopted the scales of pay etc., fixed for Public Health subordinates in the employ of local boards, in G.O.No. 2884 P.H., dated, 17-12-34 and commended to the Municipal councils for adoption, the pay of Municipal subordinates in the Public Health Department should once again be fixed with reference to G.O.No. 646 P.H., dated, 10-3-37 issued in excercise of the powers vested in the local Government under section 70(3) of the Madras District Municipalities Act.

2. The grant of personal pay to the persons mentioned in the statement appended to the Commissioner's letter, equal to the difference between the actual pay drawn by them on 1-4-37 and the maximum of the revised scales of pay is recommended.

pp9-11 C.f.

3. The proposal of the Municipal Commissioner Mangalore municipality for the continuance of the existing scales of pay for the menials in the employ of the municipal council is inadmissible. He may however be told that there is no objection for the grant of personal pay to such of those menials whose actual pay on 1-4-37 exceeded the maximum of the revised scales of pay.

4. The pay of the Women Medical Officers, Sanitary Inspectors and midwives mentioned in para 8 of the Commissioner's letter should once again be fixed with reference to G.O.No. 646 P.H., dated, 10-3-37 for the reason stated in para 1 above.

p. 5 C.f.

(A)

5. In regard to pay of Compounders in Indian Medicine vide my remarks on page 3 ante.

6. I recommend that the pay of the

K 614

Sanitary Maistry mentioned in para 10 of the Commissioner's letter (item 18 of the Statement) may be fixed at Rs. 29/- with effect from 11-1-37 in as-much as the increment due to him on that date was not drawn for no fault of his. p. 6 c.f

To

The Secretary to Government,
Education and Public Health
Department U.O.

E & P. H.
